Approval of Agenda: The June 12, 2017 agenda was approved as presented.

President’s Report: Chris Rathjen opened the meeting with welcoming everyone. Chris noted she had nothing specific to report at this time.

Minutes: Dale Marks moved to approve the minutes of the May 15, 2017 Board of Directors Meeting as presented, Marlee Siewert seconded, and the motion passed unanimously by voice vote.

Account Status Report: Tracey presented the May financial report to the Board of Directors; the reports were in the dropbox for review.

Bill Lytle moved to approve the May financial report as presented, Ritchie Wolf seconded, and the motion passed unanimously by voice vote.

Relocation of Public Access: Corry reviewed his memo in the dropbox on the Relocation of Public Access agenda item. There has been a number of discussions on the east half of Section 28 in Spiritwood (Klose Property) being incorporated into the Spiritwood Energy Park. In between the two pieces of land lays public access for a section line. Previously the Board of Directors passed a motion to incorporate the Klose Property into SEPA upon the request of a tenant.
The Business Attraction committee discussed a number of options as to where the best place to relocate the public access so SEPA could be one contiguous piece of land. Dedicating the western border of the Klose Property as public access would leave the most amount of land available for development without restricting any portion of the remaining property.

A recommendation was made from the Business Attraction Committee to the Board of Directors to relocate the public access to the western border of the east half of Section 28 in Spiritwood. This would be contingent on the incorporation of the eastern half of Section 28, or a portion of that Section, into the Spiritwood Energy Park. The recommendation was made by Tom Hausmann and was seconded by Gerald Horner.

The Board made a few inquiries and a discussion was held.

_Lorrie Pavlicek motioned to approve the recommendation from the Business Attraction Committee to relocate the public access to the western border of the east half of Section 28 in Spiritwood contingent on the incorporation of the eastern half of Section 28, or a portion of that Section, into the Spiritwood Energy Park, Marlee Siewert seconded the motion, and the motion passed unanimously by voice vote._

Ritchie inquired if there are any easements drawn into this or what are the options for easements. Ritchie commented one of things they always run into when they get into putting in utilities is where do you put it and without a designated spot you need to go out and get a private easement. Ritchie noted that a private easement really doesn’t protect anyone else so as a developer you might want to consider having an easement in with the infrastructure and then one can have some control as to where the utilities go and can address all utility issues at once. Ritchie inquired if that has ever been considered and what would it take to be considered.

A brief discussion was held by the Board. Lorrie asked Ritchie if he wanted her to amend her motion to include this. Ritchie commented that it isn’t unusual for plats to include easements for utilities. Katie noted two things; first that all we are doing at this point is requesting that the county close the section line and relocate the public access; the plat is another thing that we will eventually have to have for this area so if we are going to plat additional right of way or if we are going to have any lot lines drawn then in that process of platting it would be a good time to make sure all utilities are in place. Katie commented she feels this would be separate. Ritchie commented the whole point of bringing this topic up is that he feels that as your developing it would make sense to include easements and that it should be included in the platting process. Lorrie requested it be noted in the minutes so it can be acknowledged. Connie mentioned bringing this up at the next County Commission meeting.
