October is Manufacturing Month!

Manufacturing is at the heart of Jamestown and Stutsman County's economy. From producing essential ag-based products to advanced machinery and components used around the world, local manufacturers drive innovation, create high-quality

jobs, and keep our communities strong.

Each October, Manufacturing Month recognizes the people and companies that make a lasting impact on our region. In Stutsman County, this industry supports hundreds of skilled workers and contributes millions to the local economy. Facilities across the Jamestown area demonstrate the strength, resilience, and forward-thinking mindset that define our local manufacturing sector.

The JSDC is proud to support these businesses through workforce initiatives, site development, and partnerships that help manufacturers expand and succeed. As we celebrate Manufacturing Month, we extend our thanks to the many employers,

employees, and innovators who continue to shape the future of industry in Stutsman County.
