JSDC Board of Directors Approves UNIQUE Request

[Jamestown Sun](#) - Written by Keith Norman | Sep 10th 2019 - 6am.

The Airport Industrial Park is nearing completion and already has plans for its first tenant.

The Jamestown/Stutsman Development Corp. approved a \$350,000 one-time payment for a 40-year lease of 16 acres of land from Jamestown Regional Airport within the industrial park as a planned location for a new National Guard armory in Jamestown.

"When a National Guard armory is built, the community has to provide the land," said Jamestown Mayor Dwaine Heinrich who is

also a member of the JSDC Board of Directors. "The National Guard has to construct the building and their preferred location is at the airport."

The Jamestown Airport Industrial Park was constructed by JSDC at a cost of about \$2.8 million on land owned by the airport. Future tenants will reimburse the JSDC for the development costs, roads, water and sewer infrastructure and then lease the land from the airport. Jamestown Regional Airport is prohibited from selling land because the property was purchased with grant money from the Federal Aviation Administration. [Continue](#) to full article on our website.

ND Career Builders

The 2019 North Dakota Legislative Assembly passed House Bill 1171, creating a skilled workforce scholarship and student loan repayment program aimed at attracting people into high need and emerging occupations in the state. The result is the ND Career Builders Scholarship & Loan Repayment program. The North Dakota University System and institutions across the state, along with agency partners including the ND Workforce Development Council, ND Commerce Department, the Bank of North Dakota, and Job Service of North Dakota are promoting this opportunity for both students and employers. The scholarship and loan repayment programs target the workforce needs of North Dakota. The goal is to reduce the number of unfilled skilled workforce jobs that require a two-year degree or less.
