CEO Report

It's hard to believe it's almost the half year mark for 2020. It's been a busy year for us here at JSDC so far. JSDC participates in many local group meetings including the Community Leaders Group which has been working on the [Governor's Main Street ND Initiative](#) for the Jamestown area and the Regional Manufacturers Roundtable which meets monthly at alternating businesses to determine synergies and learn the needs of local manufacturers.

We also have some exciting potential opportunities on the horizon as Company X continues its work to determine if the Spiritwood area is a good fit for them. [Spiritwood Energy Park](#) also continues to have interest from a greenhouse, a biomass company, and a value-added processing facility. The new [Airport Business Park](#) has also been receiving it's share of interest!

JSDC continues to monitor opportunity funding for new resources available to our current and potential businesses.

We are here for you, so please reach out to us with any questions!

ND Career Builders Scholarship & Loan Repayment Program

JSDC is participating in the [ND Career Builders Scholarship & Loan Repayment Program](#) and we want everyone to know about it! This new program is a partnership between business, employees, and the state to incentivize work in high-need and emerging occupations. Employers can utilize this program to recruit talented employees by matching state dollars.

JSDC will reimburse 25% of the private-sector (business) funds contributed to match the state funding available. For example, if Company Y contributed \$8,500, they would be eligible for \$2,125 of reimbursement from the JSDC program. JSDC will only reimburse after proof of payment.
